Articulation Agreement

Community College of Baltimore County
and
Baltimore City Public Schools

College Credit for Prior Learning
at the High School

Graduating Classes of 2024 and 2025

BALTIMORE CITY
PUBLIC SCHOOLS

CCBC

Steps to receiving articulated credit

1. Obtain official transcript from high school with CTE coursework.

2. Submit official transcript to CCBC by email or mail:

   Email: echerry@ccbcmd.edu

   CCBC Essex - Attn: Emilie Cherry

   7201 Rossville Blvd. - ADMN 100-D

   Baltimore, MD 21237

3. Contact CCBC faculty to schedule portfolio review.

   See individual agreement for CCBC faculty contact information.

   (Not all CTE completers will need a portfolio review.)

Students must be enrolled at CCBC before credits are issued.

Articulation Agreement

The following Articulation Agreement has been developed for students in the Baltimore City Public Schools who plan to continue their education at the Community College of Baltimore County. The Agreement describes articulated programs that build on Baltimore City Public Schools' approved learning experience with the goal of eliminating duplication of instruction. This Agreement is for the graduating classes of 2024 and 2025 and is also valid/honored for students who graduated during the 2022 and 2023 school years.

It is understood by the parties that no funds will be exchanged in furtherance of this Agreement, and that it may be terminated by either party at the end of the 2024-2025 school year.

Non-Discrimination Statement

Baltimore City Public Schools does not discriminate on the basis of race, ethnicity, gender, age, national origin, religion, creed, disability, socio-economic status, marital status, pregnancy, political belief, or sexual orientation, and does comply with the Title VI, Title VII, Title IX, and Section 504 of the Rehabilitation Act of 1973 in all of its educational programs. All courses are open to both male and female students.

Equal Opportunity And Affirmative Action Statement

"The Community College of Baltimore County practices equal opportunity in education and employment and is strongly and actively committed to diversity with the college community."

About this Agreement

The following pages contain comparisons of Baltimore City Public Schools Career and Technical Education program sequences with introductory courses at the Community College of Baltimore County (CCBC). Faculty from Baltimore City Public Schools and CCBC meet regularly to compare knowledge and skills taught in the high school programs with those taught at the introductory level in the college programs. High school students who achieve at the appropriate levels in the high school programs listed in this document may request credit for documented achievement when they enroll in the Community College of Baltimore County.

The advanced placement earned through Baltimore City articulated career and technical programs allows students to move more quickly through the community college. Successful completion of articulated programs will also offer opportunities for students to begin their careers earlier and save hundreds of dollars in college tuition.

This agreement describes the guidelines and procedures for awarding credit, and the responsibilities of the high schools and the College for maintaining this agreement.
The specific program sequences that meet the articulation criteria are listed.

Guidelines for Awarding Articulated High School Credit

The Community College of Baltimore County (CCBC) agrees to grant college credit to high school students who successfully complete a specific Career and Technical Education (Career Completer) program in the Baltimore City Public Schools. The articulated Career and Technical Education (CTE) program sequences and courses are identified in this Agreement. A student will be awarded credit based on the Agreement in effect at the time of graduation. **Baltimore City Public Schools students must successfully complete all required high school credits in a CTE career completer program of study for articulated credit.**

Articulated Credit Criteria

- The student must complete the high school CTE program sequence of study with a **technical Grade Point Average of B or better** and **with a C grade or higher** in each required course, unless otherwise noted.
- The student must register for a credit or workforce training course at CCBC within three years of high school graduation. A student seeking articulated credit after the three-year limit should work with the College Program coordinator to consider other opportunities for credit for prior learning.
- The approved articulated credit will be posted to the CCBC transcript upon receipt of the high school transcript and the student's enrollment in the Community College of Baltimore County. The high school counselor or other designated school official should send the student's final transcript and home address to:

  CCBC Essex - Attn: Emilie Cherry
  7201 Rossville Blvd. - ADMN 100-D
  Baltimore, MD 21237

- A student unable to make satisfactory progress in a higher-level CCBC course in the areas for which articulated credit is awarded may, at the recommendation of the instructor, be required to complete a lower-level course.

Implementation Procedures for:
Baltimore City Public Schools

- Communicate the details of the Articulation Agreement to high school principals, teaching staff, professional school counselors, work-study coordinators, parents, and students.
- Implement procedures for a CTE teacher or school counselor to send the student's high school transcript and home address to the CCBC CTE office, above.

Implementation Procedures for:
Community College of Baltimore County

- Develop advisement procedures for new students from Baltimore City enrolled in programs with articulated credits.
- Develop procedures to connect program coordinators and students with articulated credit during their first semester at CCBC.
- Produce tracking reports of enrolled students with articulated credit.
- Early College Access Programs (ECAP): Students concurrently enrolled in high school and CCBC classes are eligible to receive articulated credits upon successful completion of their Career Completer program of study.

Additional Clarification

1. While students are expected and encouraged to continue their education and training in the CTE program of study at CCBC that articulates with their Baltimore City Public Schools program, it is not a requirement. Many factors contribute to a change of major for students and that will be honored by CCBC. Therefore, the agreement does not require program-to-program continuation as a condition for the receiving of articulated credits.
2. CCBC will determine how the articulated credits will apply toward certificate and degree requirements, e.g., requirement for graduation, elective.
3. CCBC does not determine how articulated credits are received by 4-year colleges and universities. That decision is made by the 4-year institution. In some cases, articulated credits from high school may not be accepted by 4-year institutions.
4. Students meeting the requirements for articulated credits at CCBC will be awarded those credits whether attending full time or part time.
5. Should a Baltimore City Public Schools Career Completer program of study be discontinued, students successfully completing the requirements in that program will still be awarded articulated credit.

Articulated Agreement Maintenance, Review, and Reporting

The following procedures are suggested to provide an objective means for assessing the success of the articulation activities:

- A Coordinating Committee composed of CCBC representatives and one representative from Baltimore City will meet once every year to review the articulation agreement guidelines and implementation procedures and recommend changes, if necessary.

- CCBC and Baltimore City Public Schools program coordinators may suggest new areas for articulation. It will be their responsibility to schedule periodic meetings of faculty members in programs where articulated credit has been awarded to review curricula and to make recommendations for awarding articulated credit.

- CCBC will complete an annual report at the end of the academic year indicating the number of students who receive articulated credit and the high schools the students previously attended. A copy of this annual report will be sent to appropriate administrators at Baltimore City Public Schools.

- Revisions to applicable course syllabi at any of the participating schools or CCBC will be sent to appropriate department heads and program coordinators.

- Appropriate administrators of Baltimore City Public Schools and CCBC will review the Articulation Guidelines annually.

Revised: May 31, 2023
